

# Essential Data Management

Access intuitive analytics for a complete picture of what's going on in your world.

Drive Better Decision-Making

Optimize School and District Operations

Improve Student Outcomes

Analytics designed to provide educational stakeholders the essential insights needed to optimize time and resources, make impactful and meaningful decisions, improve efficiencies around school operations, and track accountability.

**Hoonuit** is committed to helping educational stakeholders identify strengths, weaknesses, and areas for improvement against annual goals to be achieved for each student group for each priority and each metric within the priorities. Hoonuit Essentials offers more than 60 out-of-the-box dashboards that can be deployed and valuable to your organization quickly upon your implementation.

# HOONUIT ESSENTIALS SOLUTION SUITE

## Included features:

- Over 60+ out-of-the-box research-based dashboards and reports created using best practices
- Longitudinal analysis of attendance, enrollment, behavior, assessments, and marks
- School Improvement—a data driven process to help address what changes is the plan intending to address and progress towards that. Enables needs assessment, Title 1 Planning, Special Education Planning, Technical Planning, etc.
- Data quality tools to assure accurate information and business rule validation o Ability to create custom cohorts and grouping of students
- Ability to create dashboards and metrics
- Full ad-hoc reporting capability to be able to slice and dice any measures
- Surveys—allows survey data to be imported to support analysis by question and by respondent types (e.g., student responses versus parent responses, level types like Primary grade responses versus Secondary grade responses)
- Organization, reporting, and storing of data required for state reporting o Support of research and program evaluation with powerful queries and automated snap-shot extracts to support analysis and reporting of longitudinal district trends
- Support of root-cause analysis and continuous improvement with KPIs and ad-hoc data analysis
- Snap-shot technology to measure change over time
- Facilitation of school improvement with Hoonuit needs assessment, goal setting, and progress monitoring reports
- Optimization of students' course selections and pathway to graduation
- ESSA dashboards and reporting
- Embedded professional development modules aligned to dashboard content

# HOONUIT ESSENTIALS STANDARD CONTENT

Below are **sample questions** that can be answered with standard content included in our Essentials solution suite. These dashboards and reports can be configured to reflect your specific questions and concerns.\*

## Sample questions included:

- Which students have been tardy and absent to classes?
- Are students mastering our defined academic standards?
- Which students are at-risk?
- How has students' assessment proficiency changed over time?
